TOTEMS

Totem sculptures are composed of stacked and supported segments making them versatile for projects big and small

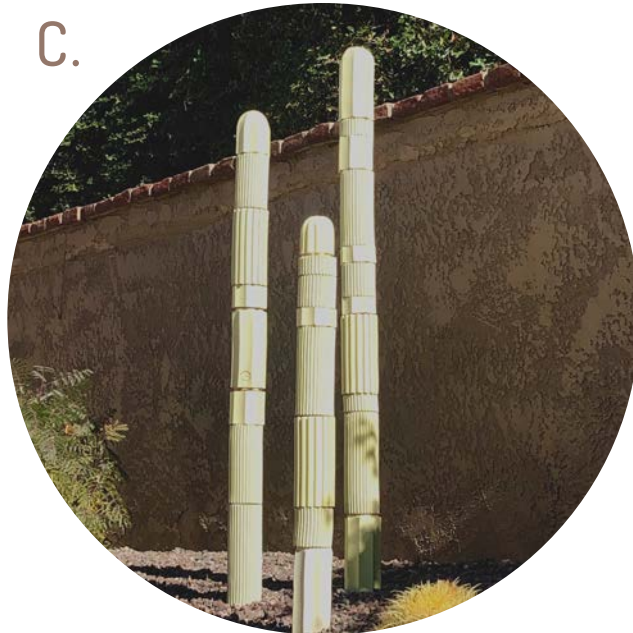

A.

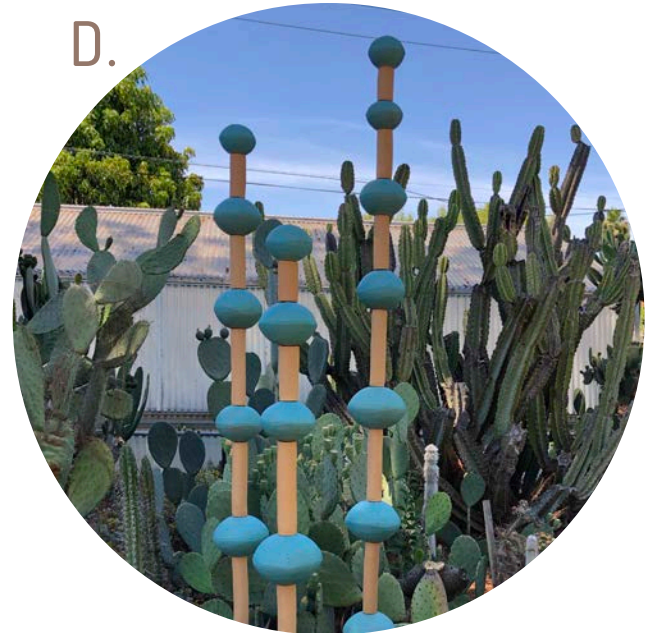

B.

C.

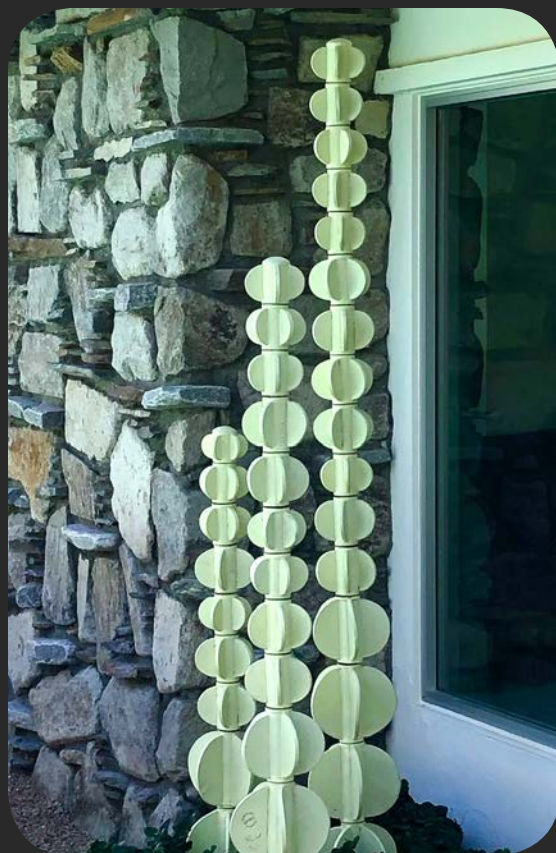

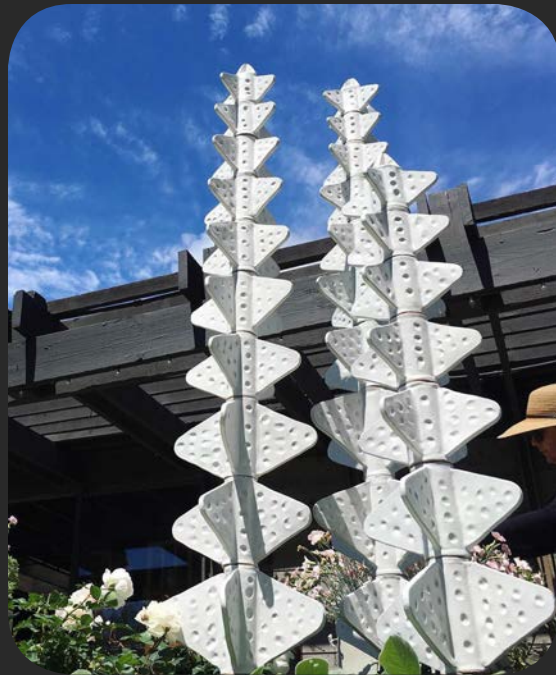

D.

- A. Euphorbia
- B. Monstrosus
- C. Gear Cactus
- D. Native Sage

EUPHORBIA

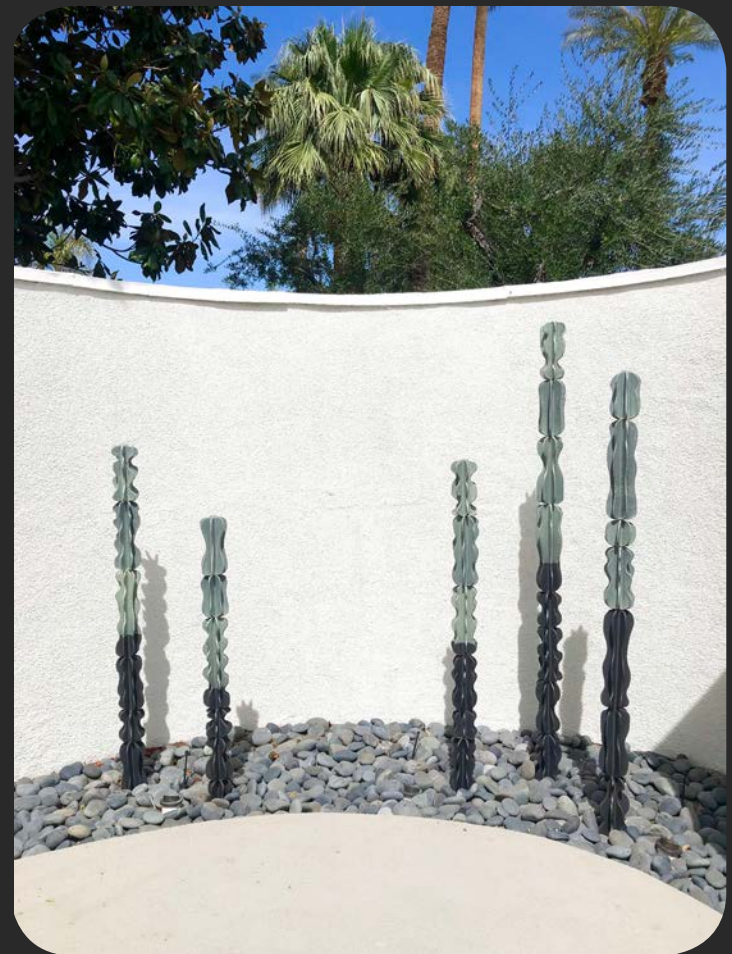

Taking inspiration from native Euphorbia cactus, these versatile groupings can grow to any height of your specification.

MONSTROSUS

From poolside to couchside, these cactus-like totems bring an unflinchable touch of vibrant nature to otherwise challenging areas to landscape or keep plants alive.

GEAR CACTUS

With a mechanical approach to this series, the extrusion pattern can be alternated, as well as colors combined.

[Equisetum pictured on the right]

NATIVE SAGE / POLLEN GRAIN

Drawing from the forms of the native sage make, these elaborately constructed pieces pay homage to our favorite pollinators.

GLAZES

A. GRAPHITE

B. VANILLA BEAN

C. ATOMIC ORANGE

D. CITRUS ZEST

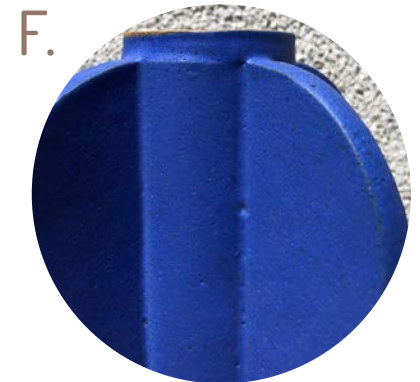

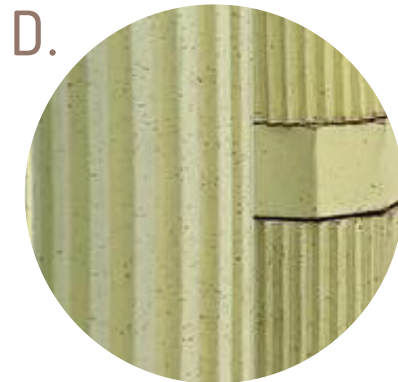

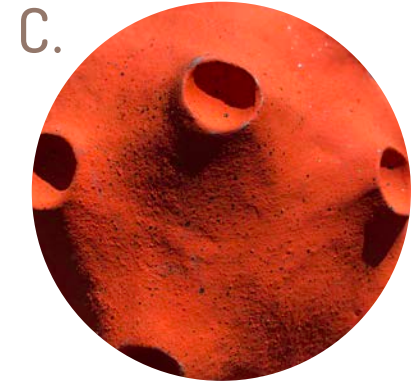

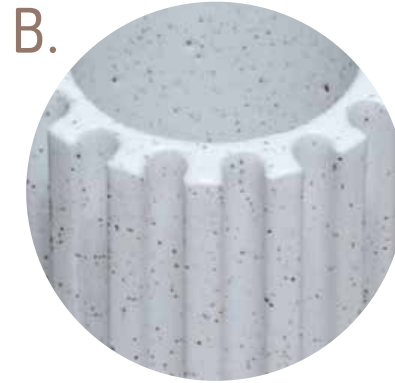

E. TURQUOISE

F. MOROCCAN BLUE
