DUSTIN GIMBEL

a sculptor and ceramic artist that draws inspiration from both naturally & industrially made forms

THE TOTEM

Totem sculptures are composed of stacked, vertically supported ceramic segments created to withstand harsh natural elements, while also being endlessly configurable to suit any space.

Designed to punctuate and accent any area, these dynamic groupings enhance both modern and classical landscapes, residential, retail, commercial, and hospitality spaces, utilizing vibrant color, light+shadow, and organic shapes.

As featured in:

THE CACTUS FAMILY

SHOWN HERE

- A. Stego-Cactus
- B. Gear Cactus
- C. Cholla Cactus
- D. Ocotillo
- E. Gigantea Monstrosus

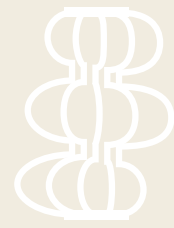

MONSTROSUS

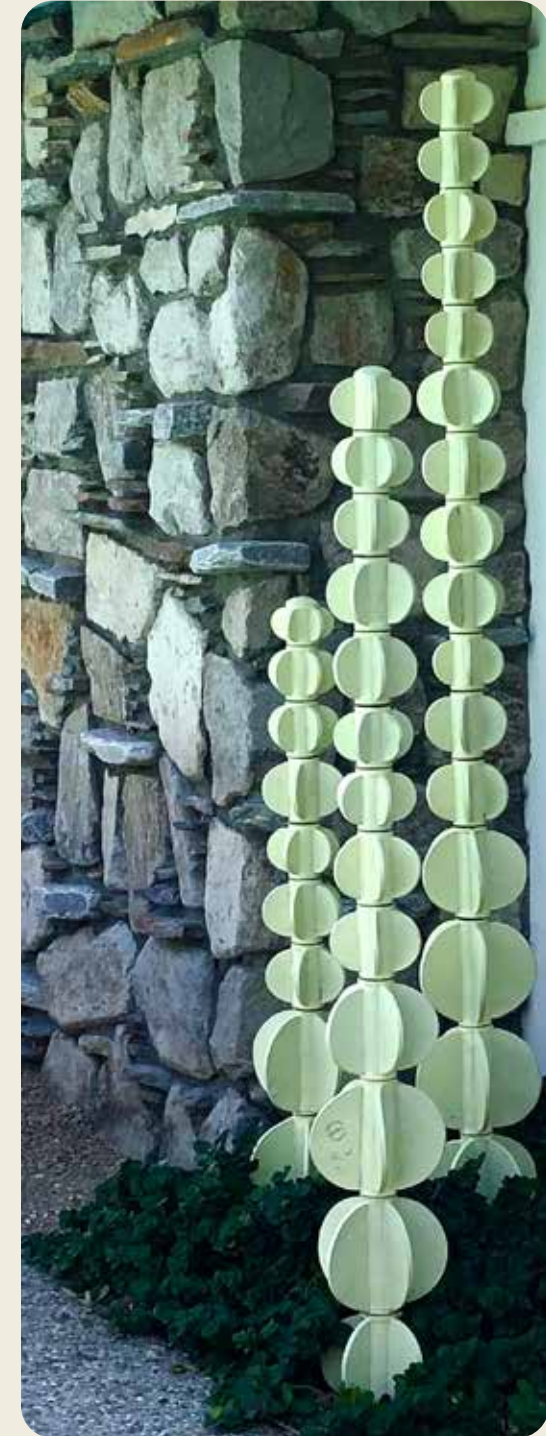

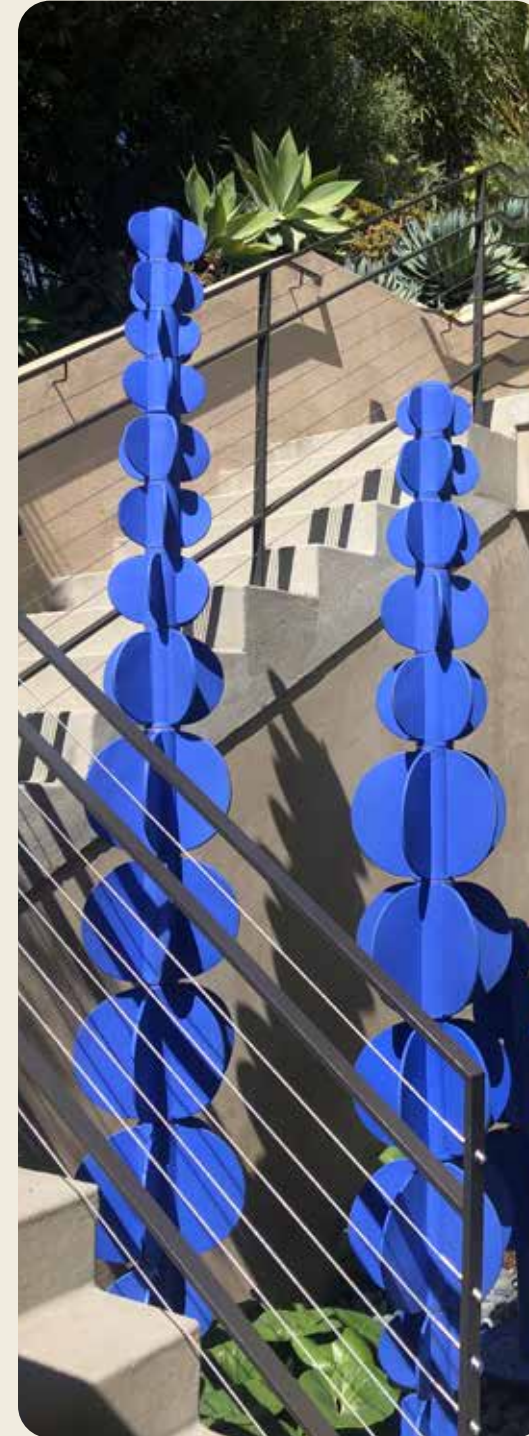

From poolside to couchside, these cactus-like totems bring an unflinchable touch of vibrant nature to otherwise challenging areas to landscape or keep plants alive.

EUPHORBIA

Taking inspiration from native Euphorbia cactus, these versatile groupings can grow to any height of your specification.

GEAR CACTUS

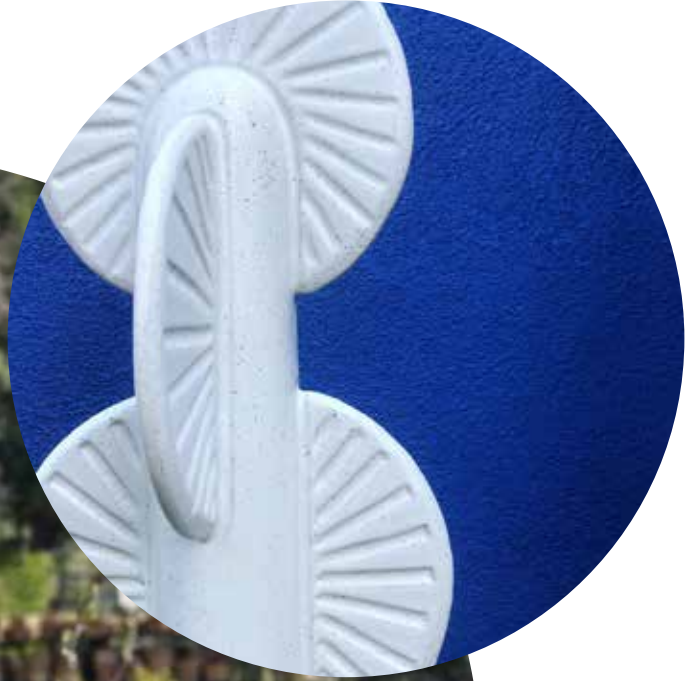

With a mechanical approach to this series, the extrusion pattern can be alternated, as well as colors combined.

CHOLLA CACTUS

Inspired by the rugged desert cholla, this shape branches out towards the sun in a mighty way. .

SUNBEAM

Inspired by mid-century modern shapes, sunbeam elicits the warm glow of the sun, inside or out.
